

## Mealtime Activity Card

### Fortunately/Unfortunately

In this activity, everyone takes part! Ask the first person to start a story with something fortunate happening. The next person will provide an unfortunate plot twist. Go around and around the table until it feels like the story is finished.

Example...A student was walking home from school when they found a wallet. The owner was no where to be seen. Fortunately, the wallet contained ID and the address listed was right around the corner. The student decided to return the wallet but unfortunately, no one was home and a really big dog started barking. Fortunately...

Be as creative as possible and remember to keep it PG!
